

MediClean Air Pros, in business since 1990, is a fully licensed, bonded and insured air duct diagnostics and cleaning company. We strive to provide a service that is at the top of industry standards. The processes we use have always been guided by the principle that **“Our Minimum Standard is Thoroughly Clean.”** We practice the accepted standard of **source removal duct cleaning**. Anti-microbial and antiviral fogging follows the cleaning to ensure a sanitized system for your indoor environment. Closeout reports include photographic documentation. **We are NADCA certified, and all work meets and exceeds NADCA standards.**

Air Duct Sealing reduces commercial building leakage up to 30% in air duct systems. This process fixes air flow issues, remedies ventilation problems, improves indoor air quality and extends equipment life. With a patented DOE approved sealing process, Aroseal is the most effective, affordable and viable method of sealing the central heating and cooling ductwork in any building. The process provides you with a **sealing summary report** for each section of ductwork that is sealed. **Aroseal maximizes the efficiency** of the duct system far more effectively than what is possible using the conventional sealing methods.

Past Performance:

GDOT 511 Center, GA Power, Rock-Tenn HQ, Barracks and Admin Buildings, Fort Benning, Belk, Nemours Children's Clinic, St. Mary's Hospital, Fulton County Schools, JW Marriott, DDEAMC – Dwight David Eisenhower Army Medical Center; Fort Gordon, Atlanta Ballet, Georgia Aquarium, TPS – Tyler Perry Studios; at Decommissioned Fort Mac, Intelsat, Fulton County Courts, Atlanta Public Schools, Winn Army Hospital, Fort Stewart, Post Exchange (PX), Barracks and Admin Buildings; Moody AFB, Fort Mac LRA, GMA – Georgia Municipal Association HQ, Yokogawa HQ, Ken's Foods, Grady Health, Emory University, USVA, Veterans Administration.
